

ECONOMICS OF THE EUROPEAN UNION

TTH 2:30 - 4:20

On-line

Instructor: Michelle Turnovsky (mturn@u.washington.edu)

Office Hours: TBA

At specific time on zoom

Course web page:

On canvas

Course Overview:

This course focuses on the economic aspects of the European Union. The historical and institutional backgrounds are surveyed briefly in order to understand the special nature of the EU as an economic entity. Then the integration and trade issues are presented; the evolution from a customs union to a single market and the trade relations with the rest of the world and specially with the US. Next the international finance aspects are investigated, including the various efforts toward monetary integration: from the “snake” to the EMS and eventually a monetary union with a single currency, the Euro, and the European Central Bank. The efforts towards further integration as well as the Brexit disentanglement will be discussed. A number of specific economic issues may be raised: the common agricultural policy, unemployment, etc.

Note: This course is an *elective for the Certificate in International Economics*.

Text: Michelle Turnovsky, *Economics of the European Union* – available online (course web page) by groups of chapters.

INTRODUCTION

What is the EU? (Introduction)

I THE FRAMEWORK OF THE EUROPEAN UNION

Development of the EU--historical background (ch I)

The Maastricht Treaty and the European Union

Decision-making process in the EU--institutional background (ch II)

The European financial markets

V RECENT ISSUES

1. The Euro Crisis (ch XII)

Causes
The Greek crisis
A banking union

2. Brexit

An unexpected blunder
The costs to the UK and to the EU

3. The pandemic

Ongoing!

Prerequisites: Econ 200 and 201 (or permission of the instructor) for students taking this class as JSIS 488 (Euro Senior Seminar) and Econ 300 and 301 for students taking this class as Econ 475. Different exams will be set for the two groups taking into account the difference in the students' background in economics.

Readings: There is no textbook to buy for this course. The readings for your research paper are available in the various libraries and on-line. Readings and sources from EU official publications are available on-line from various EU agencies. Recent articles about the EU will be uploaded regularly into the protected course webpage.

Course Requirements: There will be short essays assigned regularly and a research paper. The JSIS students are expected to carry out a more substantial research project, from which a senior thesis could evolve.

Grade: Based on the essays and the research paper.

NOTE: Due to the time constraint, it may not be possible to cover all the topics listed above.

Economics of the EU

RESEARCH PAPER FOR ECON 475/JSISA 488

Please submit your proposal by October 15, 2020 *by e-mail*

Proposal should include a title
 a description (a few lines)
 a preliminary outline
 some preliminary sources

It may be approved
 approved subject to changes
 rejected

The paper should primarily have an economic content – you should avoid choosing a topic covering mostly business, political, institutional or economic geography issues.

I will respond by e-mail.

Paper due on November 19

10 pages

with footnotes, references, and bibliography (any formal style is OK).

Tables and bibliography are in addition to the 10 pages.

Formal construction with introduction and conclusion. Include page numbers and use spell check on your computer.

A list of past papers titles will be available.

Ask me about the possibility of writing the paper as a W-paper. The length of the paper and the schedule is slightly different.

If writing is not your strongest point, you are advised to contact to a writing center for help with English. Well-written papers receive better grades.
